INSTRUCTIONS FOR SUBMITTING A NOMINATION

Exemplary Programs are anti-poverty initiatives including programs or other agency actions that introduce strong programs to support or assist in supporting individuals, families, or both, on the path to self-sufficiency or communities in economic development that will benefit the low-income population. Programs that prevent people or communities from slipping into poverty is also an anti-poverty initiative. These programs or actions include but *are not limited to*:

- Job creation
- Specific job training
- Various work, family and individual supports
- Support for crisis situations or emergency services
- Help for recently incarcerated
- Services for those suffering from addiction, etc.

Ohio Community Action Agency Executive Directors and Board Chairs may nominate one or more programs carried out by their agencies during the 2016 calendar year. CAAs may nominate any program that meets the criteria of “exemplary.”

The nominated program must have been in existence for enough time to allow the nomination to document outcomes and results. Typically, this is *at least* one year.

Ohio CAAs may nominate as many of their programs as they like in **separate applications**.

An agency awarded an Exemplary Program can publicize the program as receiving an Exemplary Program designation, noting the year. Only programs are awarded this recognition, not full agencies. Agencies may not include the Exemplary Program moniker on their letterhead or logos.

Please address the following questions/items in your application.

- 1. How long has this program been in operation?**

- 2. Was this program previously recognized** as an “Exemplary Program” or formerly known as “Best Practice”? If so, when? Have there been any changes or improvements?

Exemplary Programs Awards Nomination

5. Program Development and Implementation

a) Were a vision and specific goals developed as part of the program planning? If so, what were your vision and goals for the program?

b) Describe how you implemented the solution and the level of effort required. Consider:

Resources: Was the effort to change labor intensive? How many staff members were involved? What did they do to help implement your solution? Were volunteers used? How many? Did you hire consultants? What did they do? What was the cost of implementing the program? What were/are your funding sources for this program or process? What new technology did you have to buy and apply to implement the program, if any?

Collaboration: If there was collaboration, who did you work with, how, and why?

Resources: What activities, steps, or tasks were needed to develop the program or make the necessary changes?

c) Describe how the program works or operates. What are the important processes or steps? What quality control processes do you have in place to ensure/verify the program is operating as intended?
